

No 6 Cushing St, Providence
January 20, 1896.

My Dear Mrs Gray,

I shall indeed be very glad to receive the engraving you mention, and thank you in advance. A gentleman here has offered to furnish with portraits to the extent of a hundred dollars. He has given us a bust of Mr Darwin.

I wish I could aid you in your autograph hunt. All my father's scientific papers went to the Boston Natural History Society. It is only by accident that I ever find one. I have very many of his own letters.

I do indeed hope you may yet see my children - and my wife. Mr Walter Deane will tell you much about them.

Very truly yours
W. W. Bailey
